# Packages and TODO list

#StayHome

## *MpdFemto package*

- Status
  - Multiple bug fixes
  - Testing the updated package
  - Will provide the links (today/tomorrow)
- TODO
  - Move FSI tools to MpdFemto/
  - Add MpdFemtoMiniDstReader (with a couple of bugs fixed)
  - Add Makefiles for standalone compilation

## *MpdMiniDst package*

- Status
  - Finalizing tests and bug fixes
- TODO
  - Prepare examples and basic physics tests (flow, femtoscopy,  $V^0$  reco, etc)

*Will be ready by the collaboration meeting*
